Organic Little Gem Lettuce  
Organic Little Gem Trio  
Organic Lollo Rosa Lettuce  
Seville Orange  
Sumo Mandarin

## Product News

### Asparagus

California conventional asparagus supply is limited due to heavy demand. Season is expected to run until mid/end of May. Caborca, Mexico growing area is pretty much done for the season; Baja Mexico is expected to start in a couple of weeks, and Washington grown asparagus arrives this week. Durst Farms Organic Standard and Purple Asparagus supplies are steady. Large Asparagus will be available later this week. The season should last until late May.

### Blackberries

Mexico supply is steady but expected to slow down in a few weeks. Santa Maria supply is improving, and Oxnard should improve the first week of May.

### Raspberries

Central Mexico season is winding down, production is inconsistent. Santa Maria and Watsonville are expected to start in the next 2 weeks

### Strawberries

Santa Maria production has picked up due to good weather conditions through the month of April. Watsonville started up in a small way. Central Mexico season is winding down and volume is expected to decrease faster than anticipated. Limited Green Strawberries are also available.

### Chicories

Babe Farms Blond Frisee supplies are limited due to slow growth and high nationwide demand. We are filling in with County Lines Organic Frisee this week. Both Coke Farm and Lakeside Organics will soon have Frisee. Radicchio/Treviso/Castelfranco are expected to be very tight this week due to very low production in Mexico now; Oxnard growing area will be next.

### Potatoes

Banana, French and Amarosa Fingerling have steady supply from Oregon. Quality on Mixed Marble Potatoes from Washington is hit and miss. Supply is very tight on Yukon and Red Potatoes; season is winding down in Washington and Bakersfield is expected to start sometime in May.
