Produce News

Asparagus: California Asparagus season is done; we will start using Mexico-grown large, jumbo and pencil sizes this week. White asparagus is gapping for at least 6 weeks; volume is very small, and Peru is going to keep it for domestic business.

Beans: Dwelley Farm's Romano and Yellow Wax beans are just starting up this week. Blue Lake bean supply is steady and have good quality from California. Trimmed French beans supply is steady from Mexico. Iacopi Farm will continue to offer dried Italian Butter and Gigante beans year-round. English Peas supply is very limited; Santa Maria growing area is pretty much done while Iacopi English Peas yield is very low due to sizing is too small and still very young. Iacopi Fava beans supply remains steady this week.

Oranges: We switched to Valencia 88 fancy oranges as Navel Oranges and Cara Caras are done for the season; supply is steady and has good quality. California Blood Oranges season is ending soon; quality is hit and miss.

Peppers/Chiles: County Lines Organic Yellow Gypsy, Shishito Peppers, and Flaming Flare Peppers are in stock – early for the season! Mexico-grown Green, Red and Yellow Bell Pepper supplies are improving as both Baja and the Coachella Valley are starting production. Quality has improved. Conventional Shishito, Habanero and Red Fresno supplies are steady coming from Mexico and Florida. Conventional Mini Sweet peppers are available, but quality is hit and miss. Yellow Caribe Pepper are in good supply from Mexico. We are stocking 1/4' diced Green, Red & Yellow Bell Peppers as well as diced & sliced Jalapeno Chiles.

Squash: Comanche Creeks Organic Costata Romanesco, Zucchini, and Toybox Squash supplies are steady. Babe Farms Mexico- grown Baby Squash supplies are steady now. California-grown Yellow Straight Neck and Zucchini supplies are in stock.

Stone Fruit: California- grown Organic Cherries have finished for the season. This year's crops were down 40-60% due to poor Blossom/ fruit sets early in the spring. Frog Hollow's Organic Honey Rich Apriums and Rojo variety Apricot supply is steady this week. Balakian Farm brings us the first of the season Organic Spring Flame Yellow Peaches, Fire Zee Yellow Nectarines, Polar Light White Nectarines and Rich Snow-White Peaches. Conventional Apricots, Yellow and White Peaches, and Yellow and White Nectarine supplies are improving every week from Fresno County. California – grown conventional Cherries are in stock with bigger sizing; Washington-grown cherries are expected to start by mid-June.

Tomatoes: Comanche Creek sent us the first of season 1/2 pt Toybox Cherry Tomatoes on Friday. Supplies are very limited, but we expect more on Monday & supplies should be steady in about a week. Gold Nugget Cherry Tomato supplies are steady. Del Cabo's Organic Toybox Cherry Tomatoes supplies are winding down for the season. We are stocking Mexico- grown 1/4" diced and sliced Tomatoes.
