Produce News

Avocados: Larger sizes will be very limited from California this week but 48 and 60 count have good volume and prices. Brokaw Gem avocado variety will be available for another 2-3 weeks then switch back to Hass variety; we have better volume on 40 and 48ct now.

Figs: California Black mission figs are available now with the first season run for 2-3 weeks, then gapping for 4 weeks, then the second season starts back up with better supply with availability through October.

Grapes: Both Green and Red Grapes have started up in Coachella growing area. Black Grapes will remain in Mexico the rest of the month. Cotton Candy Grapes are gapping for at least 4 weeks until California starts up.

Melons: County Lines Organic Orange Crisp and Yellow Buttercup Melons are now in stock. California grown Watermelons have started from Imperial County. Color and Brix levels are good. Arizona or California grown Cantaloupes and Honeydew Melons are now in stock. Good quality and Brix levels.

Strawberries: Overall supply report has been off the past week. Santa Maria quality has been poor and mostly diverted to processing vendors. This puts pressure for Salinas/Watsonville growers to cover demand; expect prices to adjust this week.

Tomatoes: Comanche Creek Gold Nugget, Sun Gold & ½ pt Toybox Cherry Tomatoes supplies are steady now. Caprese, Mixed Heirloom, Early Girls and Green Tomatoes supplies will increase quickly over the next couple of weeks. Production in Baja remains strong keeping the market steady on both Round and Roma tomatoes this week. The supply of Grape and Cherry tomatoes is steady and has good quality. Mexico-grown Toybox Cherry Tomato supply is steady, and quality has been good the past weeks. Cherry Tomato on the Vine supply continues to be limited and quality is hit and miss. Yellow Cherry and Campari Tomatoes are available but limited from Mexico due to slow demand. Conv Mixed Heirloom Tomato supply is limited from Mexico due to quality. We have Yellow Tomatoes available from Mexico this week.
