MARKET REPORT

SUPPLY & QUALITY UPDATES

RAMPS

Season has started, but product is very limited coming out of Oregon.

TREVISO AND CASTELFRANCO

Treviso is gapping for 2 weeks due to late plantings and weather issues. Castelfranco is available but very limited and being prorated.

ROUND, CHERRY AND GRAPE TOMATOES

Availability is still short and pricing remains the same. That said, there will be a bit more availability as Baja production gets underway.

ASPARAGUS

Volume from Mexico is light and quality is fair at best. California grown Peacock and Delta Queen labels also have low supply with high demand.

BELL PEPPERS

Green Bells will start this week out of the Coachella Valley. Still about a month away from CA grown Red and Yellow, prices remain high until supplies improve. The high heat in Mexico is limiting harvest.

WEATHER FORECAST

GROWING CONDITIONS ACROSS REGIONS

SALINAS VALLEY

Rain is expected this weekend and will be much cooler after a couple weeks of high heat.
