SUMMER HIGHLIGHT

Melons

Melons can start as early as May from the desert, but these are rarely full of sugar. The best flavor and variety comes by mid-June. Local melon season can run into October depending on warm weather. Generally, the best of the season is in June until early September.

LOCAL GROWER SPOTLIGHT

Full Belly Farm

Full Belly Farm is located in Capay Valley and has been certified organic since 1985. They produce a wide variety of fruits, vegetables, herbs, beans, nuts, and flowers year-round, amounting to more than 80 different crops. They are committed to fostering sustainability on all levels, with the goal of integrating farm production with longer-term environmental stewardship so that this generation and future generations may continue to be nourished by the foods that they produce.

LOCAL GROWER SPOTLIGHT

Knoll Farms

Knoll Farms was established in 1979 by Rick and Kristie Knoll in Brentwood, CA. Their 10-acre farm not only produces delicious, high-quality food year round, but is also a haven for local wildlife. Knoll Farms practices food safe biodiversity farming with an emphasis on soil health, which leads to wide varieties of produce such as their famous figs, green garlic, salad greens, and stone fruit. They work closely with Bay Area restaurants, with a passion for helping shape California's food culture.

SUMMER HIGHLIGHT

Stone Fruit

The season for our local cherries is fairly short and will continue with fruit from Oregon and Washington. Bings typically start in late May, followed by Rainiers in June. During the summer months, California-grown apricots, nectarines, peaches, plums, and pluots get better as the season progresses.

SUMMER HIGHLIGHT

Tomatoes

Prime local tomato season is early-mid July through late September. Every year sees new varieties and different farmers trying their hand at heirlooms. We sell both mixed flats and dedicated single varietal packs. The Toy Box Cherry Tomato pack is a perennial favorite as you will find the most satisfying flavor from the smaller fruit. We also have a Caprese mix available, which is a mid-size heirloom mix.

LOCAL GROWER SPOTLIGHT

Comanche Creek Farms

Comanche Creek Farms' deep-seated philosophy upholds a great respect for the environment, leading to the adaptation of many organic methods of farming, some of which include: growing cover crops to aid in soil fertility, maintaining natural methods of pest control, and recycling natural materials back to the soil. Comanche Creek strives to supply local restaurants with their variety of tomatoes, herbs, peppers, squash, and melons, as well as other seasonal produce.
