MARKET REPORT

SUPPLY & QUALITY UPDATES

ASPARAGUS

Mexican Asparagus supply is very limited from the rain which has affected quality and volumes available to ship. Relief is expected in October when the weather should improve.

RUSSET POTATOES

New Crop Idaho russets are available as storage crops are finishing up. Some quality issues as skin has not fully cured yet. Prices are up, but should settle once storage crops are finished up.

HEIRLOOM TOMATOES

Are limited industry wide because of quality issues from high heat. All shippers are prorating orders, if they even have anything to ship. Northern district has finished for the season also contributing to low supply.

STRAWBERRIES

Quality remains an issue with Strawberries because of previous and continued high heat and humidity. Soft skin and texture is causing short shelf life and fair quality at best. Product is limited and being prorated.

PINEAPPLES

Availability is being disrupted due to a natural flowering issue. Market will remain tight for 6 weeks. Pricing active. Some size subbing to be expected.
