MARKET REPORT

SUPPLY & QUALITY UPDATES

BRUSSELS SPROUTS

Shippers are starting to see some insect pressure as the temperatures warm up. Product is limited and pricing is up as we deal with this issue.

STRAWBERRIES

Berries are still limited and weak overall from continued warm and humid conditions. Product is sensitive right now and not holding up. Orders are being prorated while also having to be cleaned at delivery to offer the best pack possible during these challenging times.

CRIMINI MUSHROOMS

Crimini's have been experiencing slow growth and are limited from all sources. It was expected to have improved by now, but they still aren't getting much growth.

INSECT PRESSURE

With the warmer weather, we are seeing insect infestations and heavy INSV causing us to not offer some products until conditions improve. This includes Green, Orange & Purple Cauliflower, Artisan BMX, Baby Iceberg Lettuce and Salinas grown Iceberg & Romaine Lettuces.

BLACK MISSION FIGS

California Black Mission Figs will run through the end of the month then the season is done.
