PRODUCE NOTES

APPLES: Washington storage-crop Envy, Fuji, Gala, Golden Delicious, Honeycrisp, Granny Smith, Pink Lady and Red Delicious apples remain limited as the industry transitions into new-crop harvests. Organic Sweetie, Organic Fuji, Organic Granny Smith Apples, Lucy Glo, Lucy Rose and imported Macintosh Apples from Eastern Canada are available this week.

BERRIES: Strawberry supplies continue to improve from Santa Maria with good quality. Blackberry supplies are improving from both Watsonville and Mexico. Blueberries are primarily being sourced from Peru, while organic raspberries remain limited.

BROCCOLI & CAULIFLOWER: Broccoli supplies remain tight due to insect pressure. Broccoli crowns, florets and Sweet Baby Broccoli are all limited. Conventional cauliflower quality has improved as pest pressure declines.

CABBAGE: Cone, Napa, Red Napa and Red Cabbage supplies are steady. Green Cabbage remains limited due to heavy pest pressure. Hitchcock Farms Green Cone and Red Napa Cabbage supplies are abundant.

CUCUMBERS: Organic Lemon Cucumbers and Painted Serpent Cucumbers are nearing the end of their season. Weather-related growing challenges in Mexico continue to impact pickle cucumber sizing.

GREENS: Rainbow Chard remains limited. Organic Baby Arugula is showing weather-related quality concerns. Riverdog Farm Organic Baby Savoyed Spinach is available and conventional baby greens remain steady.

LETTUCE: Butter Lettuce is gapping. Artisan blends, Sweet Gem and Little Gem supplies remain impacted by insect pressure and INSV. Romaine, Iceberg, Green Leaf and Red Leaf markets remain elevated due to lower yields.

ONIONS: New-crop Idaho onions have arrived and quality is excellent. Green onion supplies remain very limited due to weather impacts in Mexico. New-crop Oregon shallots are now available.

PEARS: Washington and Oregon Bartlett, Bosc and Red Pears are in stock. Frog Hollow Farm Organic Warren Pears are nearing the end of the season.
